## ***COPYRIGHT AND RESTRICTIONS***

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials. The various state privacy acts govern the use of materials that document private individuals, groups, and corporations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a reproduction if the document does not infringe the privacy rights of an individual, group, or corporation. These specified conditions of authorized use include:

- non-commercial and non-profit study, scholarship, or research, or teaching
- criticism, commentary, or news reporting
- as a NPS preservation or security copy
- as a research copy for deposit in another institution

If a user later uses a copy or reproduction for purposes in excess of "fair use," the user may be personally liable for copyright, privacy, or publicity infringement. This institution's permission to obtain a photographic, xerographic, digital, or other copy of a document doesn't indicate permission to publish, exhibit, perform, reproduce, sell, distribute, or prepare derivative works from this document without first obtaining permission from the copyright holder and from any private individual, group, or corporation shown or otherwise recorded.

Permission to publish, exhibit, perform, reproduce, prepare derivative works from, sell, or otherwise distribute the item must be obtained by the user separately in writing from the holder of the original copyright (or if the creator is dead from his/her heirs) as well as from any individual(s), groups, or corporations whose name, image, recorded words, or private information (e.g., employment information) may be reproduced in the source material. The holder of the original copyright isn't necessarily the National Park Service. The National Park Service is not legally liable for copyright, privacy, or publicity infringement when materials are wrongfully used after being provided to researchers for "fair use."

This institution reserves the right to refuse to accept a copying order if fulfillment of the order is judged in violation of copyright or federal or state privacy or publicity law.

## ***HISTORY***

This photo collection documents the 1940 Field School in Chaco Canyon with a few pictures of Mesa Verde included.

These photos are of indeterminate provenance. Joan Mathien thinks they might have belonged to Bill Mulloy, who appears in some of the images. They might have been donated at the time of the 1990 Old Timer's Reunion, however there is no record in that collection of a transaction such as this (the collection would have had to be donated by his wife as Mulloy died in 1978.)

In April 2008, Joan Mathien and Joyce Raab conducted an interview with Armand G. Winfield at his home. He was asked to comment on the collection and the individual photographs - the document Joan and Joyce created from that interview is included in the collection.

Many of the prints have information about people, place and year on the back; all have been numbered.
