COPYRIGHT AND RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials. The various state privacy acts govern the use of materials that document private individuals, groups, and corporations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a reproduction if the document does not infringe the privacy rights of an individual, group, or corporation. These specified conditions of authorized use include:

- non-commercial and non-profit study, scholarship, or research, or teaching
- criticism, commentary, or news reporting
- as a NPS preservation or security copy
- as a research copy for deposit in another institution

If a user later uses a copy or reproduction for purposes in excess of "fair use," the user may be personally liable for copyright, privacy, or publicity infringement. This institution's permission to obtain a photographic, xerographic, digital, or other copy of a document doesn't indicate permission to publish, exhibit, perform, reproduce, sell, distribute, or prepare derivative works from this document without first obtaining permission from the copyright holder and from any private individual, group, or corporation shown or otherwise recorded.

Permission to publish, exhibit, perform, reproduce, prepare derivative works from, sell, or otherwise distribute the item must be obtained by the user separately in writing from the holder of the original copyright (or if the creator is dead from his/her heirs) as well as from any individual(s), groups, or corporations whose name, image, recorded words, or private information (e.g., employment information) may be reproduced in the source material. The holder of the original copyright isn't necessarily the National Park Service. The National Park Service is not legally liable for copyright, privacy, or publicity infringement when materials are wrongfully used after being provided to researchers for "fair use."

This institution reserves the right to refuse to accept a copying order if fulfillment of the order is judged in violation of copyright or federal or state privacy or publicity law.

HISTORY

VIVIAN FAMILY PHOTOS

Richard Gordon Vivian was born in Laurium, Michigan on August 27, 1908. In 1918, his family moved to Albuquerque, New Mexico. In 1927, he began school at the University of New Mexico and received a B.A. in archeology. In 1929, he became a student in the first field school UNM held at Chaco Canyon, and served as Dr. Edgar L. Hewett's field assistant. He earned his master's degree in 1932, and excavated Casa Rinconada during 1931, 1932 and 1936 for the School of American Research. He married Myrtle Perce in Santa Fe on November 19, 1934. They had two daughters and a son, Gwinn. Gwinn has followed in his father's footsteps as an archeologist and has focused his research on Chaco Canyon.

In 1937, Gordon became supervisor of the NPS Indian CCC mobile unit which was established to provide ruins stabilization for parks in the southwest region from 1947-1958. The unit was stationed in Chaco Canyon National Monument which resulted in extensive archeological excavation and research work at the park. In 1958, Vivian became supervisory archeologist for the NPS Southwest Archeological Center at Globe, Arizona. Gordon died of leukemia on April 29, 1966 in Globe, Arizona.

The Vivian family lived in Chaco during much of the time that Vivian was working on stabilization projects there. The photographs in this collection were taken during those years. Gordon's son, Gwinn, became an archeologist and conducted research at Chaco Canyon, including a survey of Chacra Mesa and continues to do research on water use and irrigation systems used by the Anasazi in Chaco Canyon. Gwinn is now retired but worked at the University of Arizona Museum in Tucson for many years. He has always maintained his connection to Chaco Canyon and the park and has donated documents and photographs to the park's museum collections, including these photographs and negatives.

Publications and papers by Gordon Vivian include: Casa Rinconada Excavation report; Wall Preservation of Pueblo Bonito; Manual for Ruins Stabilization; The Three-C Site, an Early Pueblo II Ruin in Chaco Canyon, New Mexico; The Great Kivas of Chaco Canyon; The Hubbard Site and other Tri-Wall Structures in New Mexico and Colorado; and the Tri-Walled Structure at Pueblo del Arroyo, Chaco Canyon National Monument.

Many of the negatives were nitrate negatives. These were reformatted by the NPS in 2002. We now have a safety negative and an interpositive negative in place of each of the original nitrates. The nitrate negatives were transferred to WACC for permanent storage or disposal.

SCOPE AND CONTENT

GORDON VIVIAN PHOTO COLLECTION

1881-1966 (bulk dates: 1928-1964)

COLLECTION NUMBER 0029

CATALOG NUMBER CHCU 52336

VOLUME [Count]1596 [Extent] [Type of Unit]EA

DESCRIPTION Photographs primarily taken by Gordon Vivian, assembled, organized, and inventoried into categories by his son, Gwinn Vivian. Most of Gwinn Vivian's categories have been retained as series: Series 001: Prehistoric Sites; Series 002: People; Series 003: Artifacts; Series 004: Environment; Series 005: Historic and Recent Structures; Series 006: Reiter/Hewett/Mindeleff photos.

Collection includes prints, interpositive negatives, and negatives. Not all negatives have associated prints and vice versa.

ORGANIZATION [Organization]Gwinn Vivian created a comprehensive inventory of all of the photographs and negatives before donating them to Chaco Culture National Historical Park in 1989. He divided them into the following categories: Prehistoric Sites, People, Artifacts, Environment, Historic & Recent Sites/Structures and Unidentified. These categories were made into 6 series (Unidentified was renamed Paul Reiter/Hewett/Mindeleff Photos). Within these series, there are subcategories (possibly created by Gwinn?) containing one or more related images. (Example: Subcategory PS-3 represents 15 images of Pueblo Bonito within the Prehistoric Sites series.)

Series 6 of this collection includes photos/negatives by Mindeleff, Pepper & Wetherill - possibly part of a donation from McNitt, Paul Reiter and the Museum of New Mexico and Hewett.

Gwinn's inventory included the following item level information when available: sub-category, number of prints and negatives, the photographer, date, size and a detailed

description of the photograph.

There were some materials listed on Gwinn's inventory of the Unidentified photographs that were not received in the Chaco Archive (see inventory for notes). This collection was first received at the park in 1989 but not accessioned into the museum collection until 1996. It may be possible that these materials were removed while at the park and not forwarded to the museum collection for storage. [Arrangement]Park negative numbers were assigned for tracking and filing purposes and cross-referenced to the inventory. Photographs with no negatives were lot cataloged in subcategories by subject, particularly specific sites.

Photographs, negatives, and interpositive negatives (IPs) are arranged by Gwinn's subcategory number (Example: A-1, A-2, A-3), then negative number order. [The interpositives for this collection were previously part of a larger Interpositive Collection but were pulled and added to Collection 29 in 2011. Negatives were removed from the collection and placed into cold storage.]

Creator: GWINN VIVIAN

Phys Desc: Chaco Canyon

Summary Notes: HS-28; 1 print, no neg; Gwinn Vivian Desc: "Possibly not old enough to be historic, but may be historic in the sense that this was probably the last time anyone set up a field camp in the Monument/Park outside a designated NPS camp area. Camp was in South Gap, west side, just north of fence in a short rincon we named Rincon Halcon [sic] to honor the presence of a nesting pair of Peregrine falcons. Summer home in 1967 for Gwinn & Pat Vivian and Greg Staley, a student from Tees Nos Pas, Arizona. Most work was done at or near Pueblo Alto. White dog in one of the photos [neg. 78573] is Lotus Blossom. Travel trailer was brief residence of M. Vivian who joined the crew for a week."
