Introduction

Golden Gate National Recreation Area

Golden Gate NRA, Park Archives, Muir Woods Collection, GOGA 32470.003

Park Description

Golden Gate National Recreation Area (GGNRA), a unit of the National Park Service, was established by an Act of Congress on October 27, 1972. The 80,000-acre park encompasses a great diversity of cultural and natural resources in and around the Bay Area of San Francisco, California. It includes Muir Woods National Monument and Fort Point National Historic Site.

The park holds almost five million three-dimensional and documentary artifacts dating from the time before European contact to the present. They are preserved and maintained for the public by the Division of Cultural Resources and Museum Management, which includes the Park Archives and Records Center (PARC).

Park Archives and Records Center

Historical Note

GGNRA and the sites within it have been collecting records since their inception. The PARC was established in 1994 to receive records and archival collections from the Army and the Presidio Army Museum after the closure of the Presidio of San Francisco as an Army base. The collections continue to grow through the donation of materials by private individuals, transfer of inactive park records by staff, and acquisition of relevant documentary materials.

Scope of Collections

The archival collections in the custody of GGNRA document the history and activity of the various sites and groups associated with the park, described in the park's Scope of Collection Statement (1997). Collections date from the early 1860's and the most recent items are usually about five years old.

The PARC contains U.S. Army and National Park Service facility records for the Presidio of San Francisco, forts and coast defense sites in the area, and various GGNRA sites. Subjects and sites documented include the United States Army (Bear Flag Revolt, Civil War, Spanish-American War, Mexican War, World War I, Army Air Service, Coast Artillery, Army medical facilities and issues, World War II, Army support during natural disasters, Viet Nam War, and Operation Desert Storm); Alcatraz Island (Army fortress, Army Disciplinary Barracks, U.S. Penitentiary, and Indian Occupation); the natural resources conservation movement resulting in the establishment of Muir Woods National Monument; agriculture in the Marin Headlands; Point Reyes Peninsula and Bolinas Lagoon areas; U.S. Lifesaving/Coast Guard Services; San Francisco Earthquake and Fire of 1906; Panama Pacific International Exposition of 1915; natural resources and environmental issues; and preservation of open space in the Bay Area. Also included in the PARC are many of the GGNRA administrative records that document the development and expansion of this park.

Golden Gate NRA, Park Archives, Muir Woods Collection, GOGA 32470.0313

Visiting the PARC for Research

The PARC is located in an historic brick building, formerly a cavalry stable, on the Presidio of San Francisco. Collections and archives support services are available for walk-in research during open hours or by appointment. Please contact the PARC (see below) for the current schedule.

Copy Services

Black and white photocopy services for standard and oversize materials are available on-site. Color photocopying, photographic duplication, and duplication of other media are available by special arrangement. Researchers are charged for all duplicates on a cost-

recovery basis.

Rights and Publications

Copies are provided under the Fair Use provisions of the Copyright Law (Title 17, U.S.C.). Researchers must complete a Permission to Publish Contract with the Park Archivist for any other intended use of these materials (such as publication or exhibit). Researchers should consult with staff regarding their needs for commercial or public use of materials.

Legal Status of Holdings

Many holdings of the PARC were acquired/transferred prior to the establishment of an archives program, and have little documentation on their provenance (or source). All materials received after 1994 have been accessioned and documented. If provenance cannot be determined, the PARC assumes that it owns the property rights, but does not own the copyright. Staff will provide assistance, but it is the responsibility of the researcher to acquire permission from the copyright holder to cite, quote, or reproduce collection materials.

Collections developed by or for government organizations or operations are in the public domain and may be used, cited, and quoted without restriction, provided they are properly credited to the PARC. The archives contain no national security classified materials.

Donations to the Collections

The PARC welcomes donations of a variety of historic materials that meet the criteria in the Scope of Collections Statement and do not duplicate existing holdings. Collections are maintained for research use in perpetuity; there is no guarantee that items will be exhibited. If you own materials that may be relevant to the themes of GGNRA and would like to deposit them in the PARC, please consult with an archivist.

How to Use This Finding Aid

This document contains information on the contents and significance of an archival collection. It includes descriptive information, repository information, collection history, and biographical or historical information on creators of the collection, and a container or folder list of everything in the collection. After reviewing the finding aid, please discuss your specific needs with the archivist who will locate and retrieve the relevant materials.

How to Use the Collections

Please follow all rules and regulations regarding research, the use of the research facility, and the handling of collection materials. This will protect the collections so they continue to be available and usable for generations to come. If you notice anything that appears to be out of order or damaged, please notify a staff member.

Contacts

For additional information on the use of archival collections at GGNRA, please contact us:

Muir Woods Collection

Title

Muir Woods Collection

Dates

Inclusive: 1889-1997

Bulk: 1930-1989

Collection Number

GOGA 32470

Creator

National Park Service, Muir Woods National Monument

Volume

39 boxes; 5 map folders

Provenance

This collection was compiled by the staff and rangers of Muir Woods National Monument, and originally held at the location. It was transferred to GOGA archives for processing and safe keeping.

Scope Note

Thirty-nine document boxes and five map folders of administrative files, photographs, and maps pertaining to the history of Muir Woods, 1922-1989. There are also accounting books, film reels, and floppy disks. The administrative files contain contracts, building files, newsletters, monthly and annual reports, newspaper clippings, and film permits.

Administration

Agency Timeline

Timeline

1903 - William Kent meets with local conservationists to create Mount Tamalpais National Park Association with the goal of protecting the areas redwoods

1905 - William Kent and his wife Elizabeth Thacher Kent acquire the property that is now Muir Woods for the discounted sum of \$45,000

1906 - Congress passes the Antiquities Act, giving the president the right to declare National Monuments

1907 - A Sausalito based water company plans to dam Redwood Creek. Kent thwarts their plans by donating 295 acres of redwood forest to the federal government

1908 - Theodore Roosevelt proclaims Muir Woods a National Monument

1910 - A redwood tree is dedicated to Gifford Pinchot

1916 - The National Park Service is established

1925 - The Muir Woods Toll Road Company begins construction on a new road to the monument

1928 - Kent memorial erected at the Kent Tree in Fern Canyon

1933 - The Civilian Conservation Corp (CCC) begin work on trails, bridges, and an amphitheater

1937 - The Golden Gate Bridge is completed. Visitation to the park triples in one year

1945 - Delegates from all over the world meet to draft and sign the Charter of the United Nations

1995 - The U.N. and the National Park Service hold a ceremony in tribute to FDR

1996 - An 800 year old Redwood topples in the Cathedral Grove. The sound can be heard a ½ mile away.
