

Jerimiah Griffin

Letter [The Confederate States written on top of page]

Murfreesboro, March 16th 1863

Jeremiah Griffin

Dr [sic] Brother

I am well as usual rather [illegible] have written two Long letters to Night [sic] & would not attempt this but I want to send you this specimen of Rebellion in which I write & convert it to some good use and more, I will probably start to Morrow [sic] for Nolensville on our Extreme right wing, where is constant fighting between our pickets & theirs, I have just finished on our left where I slept in 30 yards of our out post picket lines & when we could see the Rebls [sic] evry [sic] day when they were brought in many of them as prisoners, this is one of the trophys [sic] captured by some of our men, the Rebls [sic] were getting paid off in about four miles of where we were paying off our men. I paid off our Signal Corps on top of [Pilot?] Knob, from which I could see all of our Army & all of Braggs which were in that direction could see the Range of the Cumberland Mountains for miles, I can tell much on this little blank so will stop [as?] for the present, but what is to be seen here is worth one life time to see, I hope to get back to civilization again soon

yours truly please write me

[illegible] Griffin
