A. INTRODUCTION

1. Superintendent's Compendium Described

The Superintendent's Compendium is the summary of park specific rules implemented under 36 Code of Federal Regulations (36 CFR). It serves as public notice, identifies areas closed for public use, provides a list of activities requiring either a special use permit or reservation, and elaborates on public use and resource protection regulations pertaining specifically to the administration of the park. The Superintendent's Compendium does not repeat regulations found in 36 CFR and other United States Code and CFR Titles, which are enforced without further elaboration at the park level.

The regulations contained in 36 CFR, Parts 1-7, are the basic mechanism used by the National Park Service (NPS) to preserve and protect the natural and cultural resources of the park and to protect visitors and property within the park. Parts 1 through 6 are general regulations applicable to all areas of the National Park system, and Part 7 contains special regulations specific to individual parks. Each of these Parts has many sections and subsections articulating specific provisions. Within some of these Part 1-7 sections and subsections, the Superintendent is granted discretionary authority to develop local rules to be responsive to the needs of a specific park resource or activity, park plan, program, and/or special needs of the general public.

As an example, 36 CFR 1.5(a) *Closures and Public Use Limits* provides the Superintendent certain discretion in allowing or disallowing certain activities. The authority granted by the Section, however, requires the Superintendent to comply with the Administrative Procedures Act (6 USC Section 551), which requires public notice on actions with major impact on visitor use patterns, park resources or those that are highly controversial in nature.

Another example is 36 CFR 1.6 *Permits*, which allows the Superintendent to require a permit for certain uses and activities in the park. This Section, however, requires that a list of activities needing a permit (and a fee schedule for the various types of permits) be maintained by the park.

A final example is 36 CFR 2.1(c) (1) *Preservation of Natural, Cultural and Archeological Resources*, which provides the Superintendent the authority to designate certain fruits, nuts, berries or unoccupied seashells which may be gathered by hand for personal use or consumption. This activity can occur, however, only if a written determination shows that the allowed activity does not adversely affect park wildlife, the reproductive potential of a plant species, or otherwise adversely affect park resources.

This Compendium should be used in conjunction with Title 36 CFR, Parts 1-7, to more fully understand the regulations governing the use and enjoyment of all the areas of the national Park System.

A copy of Title 36, CFR, can be purchased from the U.S. Government Printing Office at:

2. Laws and Policies Allowing the Superintendent to Develop This Compendium

The National Park Service (NPS) is granted broad statutory authority under 16 United States Code (U.S.C.) Section 1 *et seq.* (Organic Act of 1916, as amended) to "...regulate the use of the Federal areas known as national parks, monuments, and reservations...by such means and measures as conform to the fundamental purposes of the said parks...which purpose is to conserve the scenery and the natural and historic objects and the wildlife therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment for future generations" (16 U.S.C. Section 1). In addition, the NPS Organic Act allows the NPS, through the Secretary of the Interior, to "make and publish such rules and regulations as he may deem necessary or proper for the use and management of the parks, monuments, and reservations under the jurisdiction of the National Park Service" (16 U.S.C. Section 3).

In 1970, Congress amended the NPS Organic Act to clarify its intentions as to the overall mission of the NPS. Through the General Authorities Act of 1970 (16 U.S.C. Sections 1a1-1a8), Congress brought all areas administered by the NPS into one National Park System and directed the NPS to manage all areas under its administration consistent with the Organic Act of 1916.

In 1978, Congress amended the General Authorities Act of 1970 and reasserted System-wide the high standard of protection defined in the original Organic Act by stating "Congress further reaffirms, declares, and directs that the promotion and regulation of the various areas of the National Park System, as defined by Section 1 of this Title, shall be consistent with and founded in the purpose established by Section 1 of this Title, to the common benefit of all people of the United States."

16 U.S.C. Section 1c defines the National Park System as "...any areas of land and water now or hereafter administered by the Secretary of the Interior through the National Park Service for park, monument, historic, parkway, recreational, or other purposes."

In addition to the above statutory authority, the Superintendent is guided by established NPS policy as found in the *NPS Management Policies* (2006). The Superintendent is also guided by more specific policies promulgated by the Director, National Park Service, in the form of Director's Orders. As stated in the Management Policies, the primary responsibility of the NPS is to protect and preserve our national natural and cultural resources while providing for the enjoyment of these resources by visitor and other users, as long as use does not impair specific park resources or overall visitor experience. The appropriateness of any particular visitor use or recreational experience is resource-based and will vary from park to park; therefore, a use or activity that is appropriate in one park area may not be appropriate in another. The Superintendent is directed to analyze overall Park use and determine if any particular use is appropriate. Where conflict arises between use and resource protection, where the Superintendent has a reasonable basis to believe a resource is or would become impaired, than that Superintendent is obliged to place limitations on public use.

3. Consistency of This Compendium with Applicable Federal Law and Requirements

The Superintendent's Compendium is not considered a significant rule requiring review by the Office of Management and Budget under Executive Order 12866. In addition, this Compendium will not have a significant economic effect on a number of small entities nor impose a significant cost on any local, state or tribal government or private organization, and therefore does not fall under the requirements of either the Regulatory Flexibility Act or the Unfunded Mandates Reform Act.

The actions and requirements described in this Compendium are found to be categorically excluded from further compliance with the procedural requirements of the National Environmental Policy Act (NEPA) in Department of the Interior (DOI) Guidelines 516 DM 6 and as such, an Environmental Assessment will not be prepared.

4. Development of the Requirements of the Superintendent's Compendium

As outlined above, the NPS has broad authority and responsibility to determine what types of uses and activities are appropriate in any particular National Park System area. The requirements of the Superintendent's Compendium are developed through an analysis and determination process. The decision criteria used during this process are:

- Is there use or activity consistent with the NPS Organic Act and NPS policy?
- Is the use or activity consistent and compatible with the park's enabling legislation, management objectives, and corresponding management plans?
- Will the use or activity damage the park's protected natural and cultural resources and other protected values?
- Will the use or activity disturb or be in conflict with wildlife, vegetation, and environmental protection actions and values?
- Will the use or activity conflict with or be incompatible with traditional park uses and activities?
- Will the use or activity compromise employee or public safety?

5. Applicability of the Compendium

The rules contained in this Compendium apply to all persons entering, using, visiting or otherwise present on Federally owned lands, including submerged lands, and waters administered by the NPS within the legislative boundaries of the park. This includes all waters subject to the jurisdiction of the United States, including all navigable waters.

6. Enforcement of Compendium Requirements

NPS Law Enforcement Park Rangers enforce the requirements of the United State Code, 36 CFR, and this Superintendent's Compendium.

7. Penalties for Not Adhering to the Compendium Requirements

A person who violates any provision of the regulations found in 36 CFR, Parts 1-7, or provisions of this Compendium, is subject to a fine as provided by law (18 U.S.C. 3571) up to \$5,000 for individuals and \$10,000 for organizations, or by imprisonment not exceeding six months (18 U.S.C. 3559), or both, and shall be adjudged to pay all court costs associated with any court proceedings. You may receive a list of fines associated with any particular provision by contacting the Superintendent at 735 Nod Hill Road, Wilton, CT 06897.

8. Comments on the Compendium

The Compendium is reviewed annually and revised as necessary. The Park welcomes comments about its program and activities at any time.

9. Effective Date of the Superintendent Compendium

The Superintendent's Compendium is effective on the approval date listed on the first page of this document, and remains in effect until revised for a period up to one year.

10. Additional Information

Some of the terms used in this Compendium may have specific meaning defined in 36 CFR 1.4 *Definitions*.

11. Availability

Copies of the Compendium are available at 735 Nod Hill Road, Wilton CT 06897. It may also be found at <https://www.nps.gov/wefa/learn/management/index.htm>.

B. SUPERINTENDENT'S COMPENDIUM

In accordance with regulations and the delegated authority provided in Title 36, Code of Federal Regulations ("36 CFR"), Chapter 1, Parts 1-7, authorized by Title 16 United States Code, Section 3, the following provisions apply to all lands and waters administered by the National Park Service, within the boundaries of Weir Farm National Historical Park. Unless otherwise stated, these regulatory provisions apply in addition to the requirements contained in 36 CFR, Chapter 1, Parts 1-7.

Written determinations, which explain the reasoning behind the Superintendent's use of discretionary authority, as required by Section 1.5(c), appear in this document identified by italicized print.

I. 36 CFR §1.5 – VISITING HOURS, PUBLIC USE LIMITS, CLOSURES, AND AREA DESIGNATIONS FOR SPECIFIC USE OR ACTIVITIES

(a)(1) The following visiting hours and public use limits are established for all or for the listed portions of the park, and the following closures are established for all or a portion of the Park to all public use or to a certain use or activity:

Visiting Hours:

All Park areas, not otherwise closed to public use, will be open to public use according to a schedule of visiting hours which vary seasonally, as follows:

- The Park's grounds are open from sunrise to sunset every day. All parking areas close at sunset.
- The Visitor Center opens on weekends in May and Wednesday – Sunday from June to October 31; current hours are posted on the Park Website.
- The Weir House, Weir Barn, Weir Studio, and Young Studio are available to the public on weekends in May and Wednesday – Sunday from June to October 31. Hours for self-guided viewing, open studio hours, and guided tour times vary and are kept up to date on the park's website.
- Restroom facilities are open 10:00am to 4:00pm – daily, May 1 to October 31, with the exception of Memorial Day, Labor Day, and Indigenous Peoples' Day.
- All public buildings, including restroom facilities, are closed November 1 to April 30.
- Administration offices are open from 9:00am to 5:00pm, Monday through Friday, year-round. Administration offices are CLOSED on all federal holidays.

Determination: The above visiting hours are based upon a determination that such hours are necessary for the maintenance of public health and safety, the protection of natural and cultural resources, and the implementation of management responsibilities.

Public Use Limits:

- Any or all areas may be closed to public use or a special use permit may be cancelled at the discretion of the Superintendent or his/her designee when an emergency or potentially hazardous condition exists.
- Entering or remaining in the Park outside of posted hours is prohibited. Per 36 CFR §1.5(f): Violating a closure, designation, use, or activity restriction or condition, schedule of visiting hours, or public use limit is prohibited.
- The park may on occasion alter the days and hours of operation due to staffing constraints, hazardous weather conditions, power outages or other circumstances which necessitate closing.
- The Park, or portions of the Park, may be closed at any time for emergency, public health, or security reasons in order to protect the welfare of staff, visitors, and Park resources.
- Temporary closures will be announced on the alert section of the Park's website, the Park Facebook page, communicated on the Park's phone greeting, and posted at key locations within the Park.
- The maximum Park capacity shall not exceed 500 visitors at any one time except at the discretion of the Superintendent or his/her designee.
- Building/Facility maximum capacity or number of people that can be accommodated/occupy the building/area at any given time:
 - Burlingham Barn – 50
 - Burlingham House Visitor Center – 25
 - Weir House – 25
 - Weir Studio – 15
 - Young Studio – 15
 - Artist-in-Residence Studio – 25
 - Caretakers House – 15
 - Weir Barn – 50
 - Garden terrace and field behind the Visitor Center – 200
 - Designated First Amendment Areas adjacent to the Visitor Parking Lot – 200
 - Total Visitor Capacity – 500
- Tours of the Weir House, Weir Studio and Young Studio can only be given to groups of 15 people or less at one time. Tours of the Weir House require same-day, in-person registration. Registration is first come, first served. Group tours of 8 persons or more require a reservation made in advance. Registration and tours are free.

Determination: The historic building interiors have small room sizes and hallways and allowing more people in the building without a reservation would threaten public safety, the historic and cultural resources of the Park, and the orderly management of the Park. Visitors seeking to bring large groups within the building must make a reservation.

- Disorderly persons or groups may be removed from the Park and prevented from returning to the Park on the day they are removed.

Determination: One of the Park's primary missions is to provide a safe space to be used and enjoyed by the American people. Disorderly persons or groups who infringe on the use and enjoyment of other Park visitors or threaten the safety of themselves or other visitors will be removed from the Park. Additionally, disorderly activities that are incompatible with the operation of a museum are not permitted. One of the Park's primary missions is to preserve and protect the Park and its museum collections for future generations to enjoy and experience. Any activity that negatively impacts the Park's natural and cultural resources is not permitted.

- Leaving property unattended for any period of time requires a permit.

Leaving unknown property unattended in the Park area threatens public safety, the environmental and scenic values of the Park, the natural and cultural resources of the Park, and the orderly management of the Park. Visitors seeking to leave property unattended within the Park must obtain a permit from the Superintendent.

- Pets and children must be attended at all times. Pets and children shall not be left alone in vehicles within park boundaries.

Leaving pets or children unattended or left in vehicles could be detrimental to their health and safety, as well as infringe on the experience or safety of other visitors. Nod Hill Road cuts through the park, and children or pets left unattended would potentially be at risk to cross a busy road without supervision from parents/guardians or owners.

- Parking Lot Capacity and Vehicle Limitations – RVs, Buses, Oversized Vehicles, and Group Visits

- The Parking lot is small and can only accommodate approximately 25 cars, which includes two accessible parking spots. Once these spaces are filled, the Parking lot will be closed. There is no Park-related parking on Nod Hill Road or Pelham Lane.
- Groups arriving in 3 or more vehicles that wish to visit the Park must contact the Visitor Center in advance to make arrangements for their visit.
- Yellow school buses and large vans are permitted for scheduled group visits and require a reservation. Small shuttles (28 passenger or less) may be permitted if approved by the Superintendent and require reservations.
- Recreational Vehicles (RVs), RVs with cars in tow, campers, vehicles with trailers, tour buses, and Coach Buses are prohibited in the Park and cannot be accommodated on Park grounds or in parking areas. Visitors traveling in these vehicles can call the Park for suggested alternatives and should not pull into the visitor parking lot.

No parking is available for recreational vehicles, oversized vehicles, coach buses, tour buses, or trailers in the parking lot; it was not designed to accommodate these vehicles and space is limited. Furthermore, the Park is located in a residential area with very narrow and winding roads. Per the Park's General Management Plan, page 17, Park management will identify suitable locations for overflow parking and negotiate agreements with landowners for parking cars, tour buses, and recreational vehicles. Current agreements prohibit tour and coach buses from entering the Park.

The above public use limits are based upon a determination that such limits are necessary for the maintenance of public health and safety, resource protection, and visitor enjoyment.

Closures:

- The Park and all of its facilities, including the grounds and parking areas, are closed year-round between sunset and sunrise. No overnight parking or camping is permitted.
- The following areas of the Park shall be, for safety and security purposes, closed to all public use:
 - All construction areas
 - Caretaker's House
 - Artist-in-Residence Studio and back deck (with the exception of Open Studio Program dates).

Maintenance Shop – Wire Mill
Staff office areas
Weir House basement, second floor, and attic
Burlingham House Kitchen, basement, and upstairs offices
Collections/Museum Storage Building

- All or portions of the Park may be closed to the public when it is necessary to protect the public from unsafe conditions or to protect Park resources from irreversible damage. Signs will be posted to announce such temporary closures.
- The Park (other than the designated parking area) is closed to all motorized vehicles unless their operators have received appropriate authority from the Superintendent or his/her representative. This includes mopeds, scooters, Segways, and bikes operating under power of a motor. Visitors with disabilities are authorized to use motorized wheelchairs or Other Power-Driven Mobility Devices (OPDMDs) on Park paths and trails, and in public buildings when feasible.
- (a) The use of scooters, Segways, roller skates, skateboards, coasting vehicles, or similar devices is prohibited on Park property. Bicycles and e-bikes are permitted only in parking areas open to public motor vehicle use (Visitor Parking Lot) and on public roads within the park. All bicycles, e-bikes, Segways and scooters should be left at the parking lot at the bike rack or other location outside of the Park and are not permitted on visitor paths or trails. Bicycles, e-bikes, and scooters are prohibited from being ridden/operated in driveways and on park grounds and trails, with the exception of use by persons with disabilities as Other Power-Driven Mobility Devices (OPDMDs) as defined by the Americans with Disabilities Act (ADA). The use of Segways, e-bikes, and similar devices in lieu of manual or motorized wheelchairs is allowed by persons with disabilities who would otherwise only have the option of using a manual or powered wheelchair on the accessible paths in the park, up to and including the Weir House porch, and north terrace of the Burlingham House, and restrooms in the Burlingham Barn. Segways and e-bikes for use as an OPDMD are not permitted inside historic structures due to the density of historic furnishings and stanchions. Interior spaces in the Weir and Burlingham houses have been modified to accommodate wheelchairs and the park has wheelchairs available upon request for use inside historic buildings. Segways and e-bikes may not be operated at speeds greater than 2-3 mph, the equivalent of a walking pedestrian. E-bikes (Electric Bicycles) are defined in [36 CFR 1.4](#) and their use is managed by regulations in [36 CFR 4.30\(i\)](#).

Segways and e-bikes are not appropriate for use by non-handicapped visitors in an historic setting mixed with pedestrians. The NPS ensures that those with disabilities have the highest level of accessibility that is reasonable to our programs, facilities, and services in conformance with applicable regulations and standards. The safe operation of Segways and similar devices is dependent on their integration into the normal flow of pedestrian traffic. Segways and e-bikes cannot be accommodated in historic buildings as their use creates a substantial risk to cultural resources and collections; the park will provide other reasonable accommodations including providing a wheelchair that has been tested in the small historic spaces of the Weir House and Visitor Center for visitor use, while ensuring resources are protected.

- Use of drones on or over Weir Farm NHP property is prohibited. Launching, landing, or operating an uncrewed or remotely piloted aircraft from or on lands and waters administered by the National Park Service within the boundaries of Weir Farm National Historical Park is prohibited except as approved in writing by the superintendent.

Definition: 14 CFR 1.1 defines aircraft as any device intended to be used for flight in the air. The term "uncrewed aircraft" means a device used for flight in the air without direct human input from being onboard the aircraft. Therefore, Uncrewed Aircraft Systems (UAS) are considered aircraft regardless of size or weight. The "system" incorporates associated operational components including flight controller, flight software, communication radios, cameras, and sensors. UAS comprises all types of single-rotor, multi-rotor, fixedwing, and vertical take-off and landing (VTOL) aircraft that meet this definition and are used for any purpose, from recreation to commerce. This term includes all types of devices that meet this definition (e.g. model airplanes, quadcopters, drones) that are used for any purpose, including for recreation or commerce.

Determination: Pursuant to 36 CFR §1.5 and Reference Manual 60: Aviation Management ([RM-60](#)), this restriction responds to the maintenance of public health and safety, protection of environmental or scenic values, protection of natural or cultural resources, implementation of management responsibilities, equitable allocation and use of facilities, or the avoidance of conflict among visitor use activities. Park managers understand the benefits of limited use of uncrewed aircraft systems (UAS) for research, for administrative use, and to provide for the public's safety and welfare recreation use of UAS's is not compatible with park management values.

- Additionally, the Park is closed to the following activities and those prohibited by the General Regulations outlined

later in this document:

- Wedding ceremonies or similar social events
- The use of a metal detector or any subsurface exploration is prohibited.
- Clearing, thinning, or cutting of trees, tree branches, or shrubs on park property is prohibited. Removing, cutting, or damaging of plants or stones to create social paths or viewpoints from bordering private properties is prohibited. Dumping of any debris, compost, yard waste, leaves, or other waste on park property and from neighboring yards is prohibited.
- Climbing over, under or around railings, gates, doors, stanchions and lines, barricades or other physical barriers used to control or limit public access is prohibited.
- Marking out a playing field for playing organized baseball, football, soccer or similar recreational activities is prohibited. Competitive recreation events, including but not limited to running and cycling, are prohibited except if authorized in writing by the Superintendent.
- Any other sport or activity that damage park resources or present public safety hazards

Determination: These prohibitions were determined necessary to ensure visitor and staff safety and the preservation of the significant natural, cultural, and historical resources of the Park. They are designed to fulfill the Park's mission and to allow for the maintenance and interpretation of its cultural landscape. These prohibited activities have been deemed dangerous to visitor safety and Park resources and/or incomputable with preservation maintenance. Pursuant to 36 CFR §1.5 these public use limits ensure maintenance of public health and safety, protection of environmental or scenic values, protection of natural or cultural resources, implementation of management responsibilities, equitable allocation and use of facilities, or the avoidance of conflict among visitor use activities within the boundaries of Weir Farm National Historical Park.

(a)(2) The following areas have been designated for a specific use or activity, under the conditions and/or restrictions as noted:

Filming, Still Photography, and Audio Recording:

All filming, still photography, and audio recording is treated the same under Section 125 of the EXPLORE Act (Public Law 118-234). It does not matter whether the activity is commercial, non-commercial, or conducted by media or for news gathering. Weir Farm NHP does not require a permit or a fee for filming or still photography activity that involves fewer than eight individuals arriving in 2 cars or less, so long as the activity occurs in an area open to the public; does not adversely impact park resources, values, or other visitors; does not require the exclusive use of a site or area; and does not involve a set or staging equipment other than handheld equipment, such as a tripod, monopod, or handheld lighting equipment.

Reservations are required for groups arriving in more than 2 cars for photography/filming sessions in the Park, including but not limited to family portraits, school photos, and engagement photos. Photography/filming sessions with more than 8 people or with sets or staging will require a permit (see section II, Activities that Require a Permit, below). Individuals and groups conducting filming, still photography, or audio recording remain subject to all other laws and regulations applicable to visitors to park areas, including those requiring permits for certain activities (e.g., special events or demonstrations) and those prohibiting disturbance or other negative impacts to natural or cultural resources.

The Park has limited parking and must limit the number of portrait photography sessions at one given time to ensure ample visitor parking, as not to interfere with the visitor experience and to adhere to resource protection and safety issues related to the parking areas. Sessions/requests for more than 2 cars are scheduled based on park capacity and visitation by making a reservation, similar to a group visit request, by calling or emailing the park and obtaining permission in advance.

Fundraising:

In-park fundraising activities and events are prohibited.

Painting:

Grounds: Artists and painters are permitted to set up their materials onsite. However, they are prohibited from setting up on historic structures including stone walls, porches, or in locations deemed unsuitable by Park staff like parking lots, near roadways, in front of the restrooms and on the Weir House/Burlingham House porches. Public areas should be kept clear for visitors and movement of staff vehicles. Brushes and other art related items cannot be cleaned or left onsite. Art materials, such as paints and pastels, must not be used on park resources, even if the intent is to create something artful. Installation art is prohibited.

These conditions are established to protect the historic resources and maintain visitor safety, and are the minimum restrictions necessary to achieve such protection.

Artist-in-Residence Housing:

The Caretaker's House is designated for restricted temporary residential use for approved Artists-in-Residence only.

Per the 1995 Weir Farm NHP General Management Plan the accommodation of artists living in the park in a historic building for an extended period is a component of the preferred alternative approved by the Regional Director.

CCTV Policy Statement

In accordance with National Park Service Law Enforcement Reference Manual 9 (RM-9), notice is hereby given that Weir Farm National Historical Park uses Closed Circuit Television (CCTV) security camera monitoring.

The Park's use of Closed Circuit Television (CCTV) for law enforcement and security purposes will only be to visually monitor public park areas and public activities where no constitutionally protected reasonable expectation of privacy exists. Such CCTV use – which will have adequate privacy and First Amendment safeguards – will be to help ensure public safety and security; facilitate the detection, investigation, prevention, and deterrence of terrorist attack and crime; help ensure the safety of citizens and officers; help assist in the proper allocation and deployment of law enforcement and public safety resources; and help facilitate the protection of the innocent and the apprehension and prosecution of criminals. (RM-9, 26.1)

This policy does not restrict the official use of CCTV in government administrative areas, including administrative buildings, jail holding facilities (RM-9, 26.3.7), revenue collection sites, etc., where the government may record/monitor its facilities. For example, the government may perform unrestricted video/audio recording at revenue collection points (entrance stations, visitor center counters, etc.). This policy does not restrict the use of an Audio/Visual Recording Device (AVRD) in patrol vehicles or officer-worn recording devices used by commissioned rangers. (RM-9, 26.1).

Operation of CCTV cameras, maintenance of recorded images and use of recorded images will be in accordance with NPS and Department policy and applicable laws and regulations. (RM-9, 26.1-26.4) No person will be targeted or monitored merely because of race, religion, gender, sex, disability, national origin, or political affiliation or views. (RM-9, 26.4.2)

Nothing in this policy statement is intended to create any rights, privileges, or benefits not otherwise recognized by law.

II. 36 CFR §1.6 – ACTIVITIES THAT REQUIRE A PERMIT

Special uses and activities are managed through the Special Use Permit process. Each application will be handled individually. In the instance that two separate applicants are requesting use of the same area on the same day, they will be handled on a "first come, first served" basis. Activities requiring a permit are listed below under the specific 36 CFR Section that authorizes or requires the issuance of a permit. Special Use Permits may be obtained by accessing an application at www.nps.gov/wefa and clicking on "Reserve" on the main page or by contacting the Special Use Permit Coordinator at kristin_lessard@nps.gov.

The permit process allows NPS to protect park resources and guarantees groups a priority for a space when multiple groups or individual demonstrators want to use a designated first amendment area in a park.

(f) The following is a compilation of those activities for which a permit from the Superintendent is required:

Any activity that would otherwise violate operating hours, closures or limits listed in this compendium requires a permit.

- §5.7 Construction of buildings, facilities, trails, roads, boat docks, path, structure, etc.

Pursuant to provisions in 54 U.S.C. 100905 and the EXPLORE ACT:

- On January 4, 2025, the EXPLORE Act was signed into law (Public Law 118-234) and has been codified at [54 U.S.C. 100905](#). In most cases, permits and fees are not required for filming, still photography, or audio recording that involves eight or fewer individuals. At Weir Farm NHP, a permit is required for Filming, Still Photography, and Audio Recording activity that includes more than 8 persons and/or more than 2 cars. When a filming, still photography, or audio recording permit is required, the National Park Service will charge location fees and fees to recover its costs to administer the permit, including application fees.

To ensure public safety and the protection of park resources and values, and to avoid assigning the same location and time to two or more activities, for groups larger than 25 persons, the park will issue permits that specify/organize the time, location, number of participants, use of the facilities, and number and type of equipment used, but not the content of the message presented.

The Superintendent shall, within ten days, issue a permit upon proper application.
