

**Stock Site Evaluation Project
Upper Cathedral Lake**

Yosemite National Park
California

National Park Service
U.S. Department of the Interior

Forage Area: Upper Cathedral Lake Northeast (2281), Upper Cathedral Lake Southeast (2268), and Upper Cathedral Lake West (2269) - There are large meadows east and west of the lake.

Annual Grazing Capacity: 19 stock use nights

Cathedral Lake

Camp ID: 153

Fire Ring: 287,308mE x 4,190,987mN

Handling Practices: The site is located on the north side of Upper Cathedral Lake in the forested area that is bordered to the northwest by a large bedrock cliff that overlooks Lower Cathedral Lake. The access route heads west approximately 0.2 mile over the outlet creek and multiple bedrock outcrops, then heads up the slope to the unloading area, which is also the holding area. The fire ring is located 30 m southwest of the holding area.
